Quality Management
And Quality Assurance**

*Secretariat: Canada (SCC)
Secretary: D. Zimmerman*

March 27, 2008

**To: Mr. Armando Espinoza, Chairman
Latinoamerican Institute for Quality Assurance (INLAC)**

Subject: Recognition of INLAC Involvement in ISO Quality Management Standards

Dear Mr. Espinoza,

On behalf of the 101 member countries and over 30 liaison members of ISO Technical Committee 176, I would like to take this opportunity to thank you and the rest of the INLAC organization for the high level of service in the cause of international standardization.

For many years, INLAC has been involved in the latest activities in our Technical Committee including terminology work, supporting standards, and in particular, the development of the ISO 9001 quality management system standard. In the latter activity, INLAC representatives have taken leadership roles in managing the progress of the work, from initial working drafts to the final product.

We very much appreciate the interest and enthusiasm provided by the INLAC delegates and we look forward to your continued involvement in future quality management standards endeavours.

Warmest regards,

David Zimmerman
Secretary
ISO/TC 176
